We are currently finalizing the Program Book of ISICO 2019 Surabaya Conference. Overall programs for Day 1 and Day 2 is available at <https://www.isico.info/programs/> while the program book should be available online at our conference website by tomorrow.

Please check your presentation time and date in the program book. There are up to seven classrooms for each session wherein the Conference Track Presentation will be performed in parallel.

Therefore only the papers for which the presenters are at the conference can be submitted for publication in Procedia Computer Science. A certificate of appreciation will be awarded to one of the authors who present their paper during the Conference Track Presentation.

Oral Presentation

Oral presentations have a 15 minutes slot – please prepare a PowerPoint presentation that lasts for up to 10-12 minutes maximum to allow 3-5 minutes for discussion after your talk. This equates to roughly 10 slides excluding your title and acknowledgment slides. The session chair will give you a warning at 11 minutes so you have a minute to wrap up. The chair will be very strict about timing and will stop you when your 12 minutes is up even if you have not finished.

It is strongly recommended that all presentations be in Microsoft PowerPoint (PPT), windows-based environment. Presenters wishing to use any operating system other than the above-mentioned must bring in their computer and will be responsible for its operation.

We recommend sending your presentation in advance via this form: <https://tinyurl.com/2019isicopresenters>. If you are not able to do that, please meet with the support staff at the registration desk as early as possible (at the very latest at 12.00 WIB on Day 1, and 10.00 WIB on Day 2 (!)) to upload your slides from USB flash drive/memory stick.

Acceptable formats: PPTX (PowerPoint 2007/2010/2013) or PDF

Be sure you have embedded any multimedia objects (e.g., movies) in the slides

You may use any theme, although we recommend dark text on a light background

Be sure to provide your name on the title slide

Please number your slides

PLEASE label your file with your Paper ID_Presenter Name_Day12_The Session Number:

e.g., ID06_Isyana Rose_Day1_Session1

Thank you very much for being part of the ISICO 2019 Surabaya Conference.

22 Juli 2019 pukul 07.57

Kepada: Maniah Maniah <maniah@poltekpos.ac.id>

Dear Maniah Maniah,

Our Editors-in-chief team are working hard to prepare your manuscript to be ready for the production process in Procedia Computer Science. To maintain the high quality of manuscript in ISICO 2019, the preparation must follow 4 (four) rounds of quality checking. The first rounds of initial checking have finished last week followed by the second rounds of manuscript formatting that will be finished this noon. The third round of regularities checking on the manuscripts has been conducted in parallel for all papers finishing the second rounds. The fourth round starts right after all of the manuscript files have been transferred to Procedia Computer Science for technical checking on July 24, 2019. Please note that it will require at least 8 weeks for the manuscripts to get published online as suggested by Procedia Computer Science.

During all of the stages of the production process, no changes are made to the actual content of the paper. However, to ensure that no errors have inadvertently been introduced, we would ask you to kindly check the final PDF of your paper under the "Proceedings" menu in the EasyChair system, paying particular attention to:

- 1) the title of the paper,
- 2) authors and affiliations,
- 3) the number of pages (extra charges are applied for paper more than 8 pages),
- 4) any other formatting irregularities.

If you have indicated more than one corresponding author for your paper, you will not be the only author receiving this email. Please collaborate with your co-authors before sending your comments. Please note that we will only correct errors that have been introduced during the publication process. This should not be seen as an opportunity to copyedit or modify your paper in any way.

Please note that the deadline for your reply is within 24 hours. You can send an email directly to editor.isico@gmail.com, informing about errors on the PDF file of your paper. If you have not responded by then, the paper is automatically considered approved.

We greatly appreciate your cooperation in these matters.
See you tomorrow in ISICO 2019 at Bumi Surabaya City Resort, Indonesia.
